

Backlit applications, indoor and outdoor lightboxes

Clear and backlit film

euromedia Color Backlit wb

Polyester frontprint-backlit for dye-based and pigmented inks. Super price/performance ratio, high quality image reproduction, moisture resistant, reflection free, fast drying and vibrant colours at an attractive price. Fulfils all requirements perfectly: euromedia Color Backlit wb produces impressive results when purely frontlit as well as backlit thanks to its outstanding light diffusion.

Robust 215 mic. giving it outstanding stability and lie-flat properties. Perfect for outdoors and in. Dry in a flash for handling vibrant prints, which deliver saturated colours not only when backlit and allow your customers to shine. Color Backlit wb also allows you to gain volume business or jobs with tight budgets, yet also remain true to your quality claims. To show off Color Backlit in the best light, we recommend euromedia Llumini Box - LED lightbox solution in a high quality flatscreen design, energy saving and dead easy to place into its clamping frame system. The specially developed illumination panel ensures a more even backlit effect.
