

For photographic reproduction

Interior Design

## euromedia Canvas Advanced

euromedia Canvas Advanced is a 410g canvas suitable for photo-realistic art reproductions. The canvas is a natural product consisting of 100% cotton and has a matt white coating. Smooth gradations and contrasts as well as good lie-flat properties allow perfect photo-realistic image reproduction. The fine cotton fabric and natural white colour of the media round off the overall special look.

Canvas Advanced is flexible, but does not distort when handled. The coating is firmly embedded in the surface of the base substrate preventing undesirable stress whitening.

### Dimensions

410g - 762mm(30') - 12m  
 410g - 1372mm(54') - 12m  
 410g - 1520mm(60') - 12m

### Product Code

70100112339  
 70100112340  
 70100112341

### Hints & Tips

Canvas is a natural product and is affected by changes in humidity and temperature. Printing also has an effect on the media. You should work on the assumption that printing will produce shrinkage of about 1.5%. Ideally carry out tests on a piece about 1x1m, before going into 'mass production'. Being a textile based media different batches may have different surfaces, therefore you should always produce larger jobs from a single batch of the material. As an alternative to a print in a stretcher frame, we recommend our DecoFrame uv; picture and frame in on.

## euromedia Canvas Advanced

### Product Properties

#### Applications

- indoor
- art
- trade fairs

#### Properties

- PVC-Free

#### Processing Tips

We basically recommend that the print is left to dry out for 24 hours before finishing.

#### Specifications

Material	Artist Canvas, 100 % cotton
Surface	Matt, natural white
Thickness	410 g
Shelf life	1 year

#### Note

This information relates to the current state of our knowledge and is given without obligation to provide you with information about our products and their applications. The information we give does not absolve you from carrying out your own trials and tests of the suitability of our products for your intended application. We reserve the right to carry out modifications, which will result in an improvement to the product.
