

Print, fold, hang picture and frame in one for high quality advertising and decoration

Interior Design

euromedia DecoFrame XL canvas uv

The euromedia DecoFrame XL canvas uv offers you picture and frame in one. Print using digital UV flatbed printers directly onto the canvas structured board, whose high quality surface promotes the intense colours of your graphics. A few simple folds and the pre-perforated and self-adhesive DecoFrame XL canvas uv is assembled into a finished three-dimensional picture, which can be hung straight away thanks to the ready-made hanger.

A stylish yet highly robust lightweight frame that can be assembled quickly and professionally even by inexperienced users. No additional tools are required. In addition to its outstanding appearance, the flat sheets of the DecoFrame XL canvas uv also make it a space-saver before and after printing and keep down transport costs. Print, fold, hang – it couldn't be simpler! See the printing and assembling of a euromedia DecoFrame uv by Fujifilm. Watch the video.

Dimensions

Print size (w x h) 585 mm x 835 mm - 10 pieces

Product Code

70100111235

Hints & Tips

Make the most of it: After direct printing on a UV flatbed printer such as the Acuity Advance from Fujifilm, finish the DecoFrame uv by screen printing unique effects that will capture everyone's attention. Do you prefer a textile feel? Get hold of our Artist Canvas FR and stretch it in a stretcher frame. Measures: Basic measure WxH: 801mm x 1050mm Print measure WxH: 585mm x 835mm (please make sure that an edge (horizontal and vertical) of 103mm is given on every side) Assembled measure WxHxD: 508mm x 762mm x 38mm Please click here for the assembling instructions

euromedia DecoFrame XL canvas uv

Product Properties

Applications

- indoor

Properties
